

Ephesians Journal

Write out each passage, word for word, on the right-hand side of your journal (use the same version of the Bible for the entire exercise). Answer the questions below for each paragraph on the facing page or mark them within the text itself.

- What do you see about God's character?
- What did you learn about God's actions?
- Where do you see yourself?
- What needs to change?

If you choose to mark your answer in the text, you could draw a box around descriptions of God's character, double-underline His actions, underline where you see yourself, and write out changes you need to make on the facing page. Think about what you've written, ask questions, and note what is important. Personalize God's Word to you. (Each portion below is one paragraph.)
